

## AND IT'S NICE TO KNOW YOU ALWAYS HAVE A TEAM SUPPORTING YOU!

There's nothing quite like being part of a team, and our schools are the perfect size to let you try things on your own with a big safety net of support. From the bond formed by teams that are tested in the crucible of battle to the Advance Placement classes that let out collective exhales after their exams are done, you can be sure there are groups of kids just like you that will embrace you and help you reach beyond what you thought was possible.
